

UPDATE TO MASTER PLANNING INSTRUCTIONS

Background

- Master Planning Instructions (MPI) is the detailed implementing instructions that prescribe the detail practice of Army Master Planning
- Last updated 1995
- Significant changes in Planning practice requires updates to MPI

Update Strategy

- MPI is text based document, however state of the art technology with multimedia can evolve document into a more user friendly, learning document.
- MPI guidance needs to be revalidated updated to ensure guidance meets current practice.
- Update effort should be a collaborative effort involving USACE, IMA and ACSIM team

MPI Update

- USACE has funded the kick off of the MPI update
- MPI update will be a phased development.
 - Phase 1 Analysis of technologies
 - Phase 2 develop MPI for RP Master Plan Digest
 - Phase 3 develop MPI for Land Use/Area Development Plan
 - Future phases other MPI guidance, enhanced technologies. Etc.
- Consultant ITA/Black and Veatch Assoc
